

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

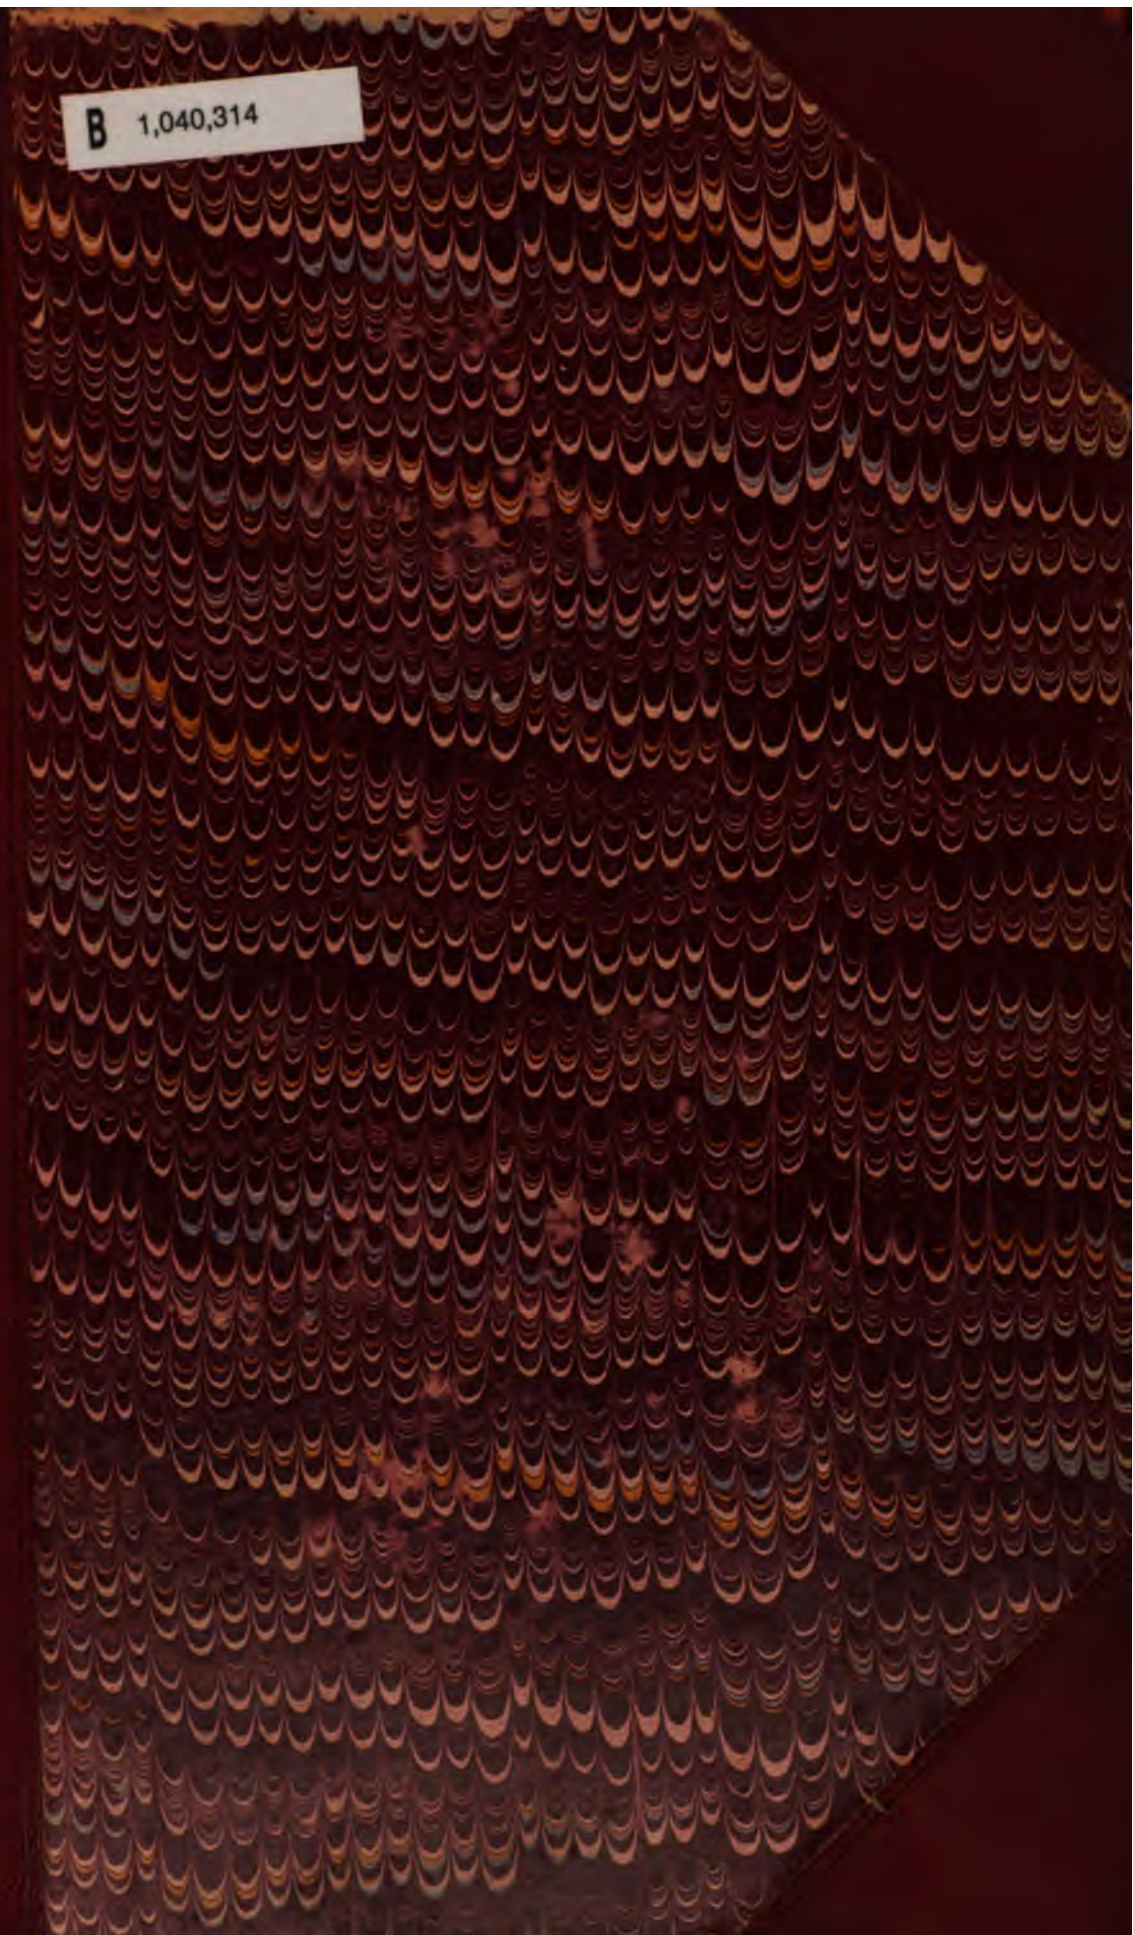

We also ask that you:

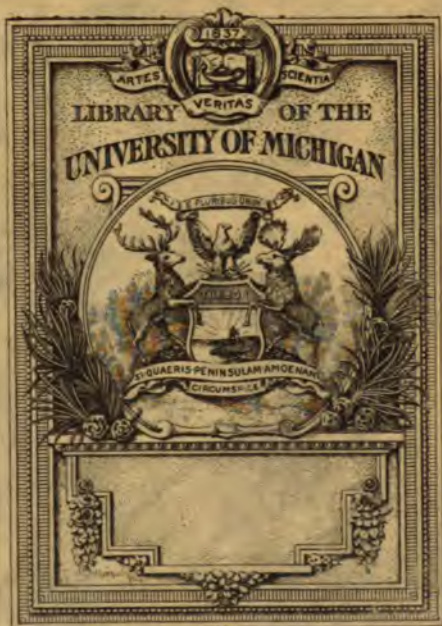

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Colombo (*Lat. COLUMBUS*), Cristoforo. The letter in Spanish written on his return from his first voyage, and addressed to Luis de Sant Angel, 15 Feb.—14 March, 1493, announcing the discovery of the New World. Reproduced in facsimile from a unique copy in the possession of the publishers [Ellis & Elvey]; with introductory & critical remarks [by Julia E. S. Rae], accompanied by a revised Spanish version, and a literal translation into English. London. 1889. 4° pp. 47+ (8). *Port.* ***1373.67**

A contemporary manuscript copy of this first Spanish letter was found by Navarrete at Simancas and is printed by him in his *Coleccion*, though Harrisson questions if it represents the text as Columbus wrote it. Another early copy, substantially the same, though addressed to Sanchez, was later found in the Colegio Mayor de Cuenca, and was printed by Varnhagen in 1838. The earliest discovered printed copy came to light in 1852, when it was added to the Biblioteca Ambrosiana at Milan. It was printed in 1493, apparently in Spain or Portugal. No other copy of this edition has ever been found, and it was reprinted at Milan in 1863, and in facsimile in 1866. This was for a long time the only resource for scholars who sought to use the original Spanish text, presumably as Columbus wrote it; but within a year two other contemporary editions have been discovered in a single copy each. One of them, in four quarto leaves, is mentioned above. Experts in early Spanish typography have supposed it to have been printed at Burgos, or possibly at Salamanca. This and the Ambrosian edition seem to have been set up, one from the other, or possibly from some anterior edition. The other newly-found Spanish edition was discovered in Spain, and is printed in folio on two leaves. The Paris dealer who possesses it has offered it at 65,000 francs, and has issued a facsimile of it.

A few years ago Bergenroth found another text at Simancas, substantially the same, but purporting to be addressed to a friend of Columbus. Bergenroth gave a full abstract of it in the *Calendar of state papers relating to England and Spain*. If we add to these several texts, that which is contained in Andrés Bernaldez's *Historia de los reyes católicos* (not printed till 1856 at Granada, and at Seville in 1870), we have all the varieties of the first account of his voyage, which Columbus wrote in different letters, which are essentially alike. Bernaldez is known to have had papers put in his hands by Columbus, and is thought to have placed bodily in his text a draft of the letter which he may have received from the Admiral himself. Attempts have been made by Varnhagen and others to collate all these texts, except the two last discovered, to discover if possible by critical comparison what may be considered the true text. The attempts have not agreed with each other.

Scholars have usually used, however, the Latin text, and it was inferred, prior to 1852, from the absence of any Spanish edition — for up to that date none had been discovered — either that there had been some prohibition of printing the Spanish original, or that there had been less popular interest in the discovery in Spain than there was in Italy and Central Europe, where there were four editions of this Latin text in Rome, three in Paris, and one in Antwerp, all issued in 1493-94. There was no German edition till 1497, and then it was given in the German tongue. There are copies of these Latin editions in several American libraries, and one sold in New York in the Barlow library in Feb. 1890 passed into the Boston Public Library.

"The object of the following essays is briefly to point out the doctrinal differences between the twelve apostles and Paul, and to explain that the doctrines in the Korān were to a great extent derived from the ... Ebionites. ... The Korān, from which all peculiar doctrines of Paul have been excluded, may in many essential points be regarded as a record of pre-Paulinic Christianity." — *Introduction.*

My daughter, Miss MARY L. WARE, and I, offer for your acceptance a collection of glass-models of plants, flowers, and analytical details of vegetable structure, now in process of construction by the well-known artists Leopold and Rudolf Blaschka, of Germany.

A contract for the construction of the models was arranged and signed in Dresden, in April last, by L. and R. We assume in full the responsibilities regarding payments of the sums mentioned in the contract, and we shall provide the necessary amounts on the dates specified. It is our intention to defray all the expenses of shipment of the models to Cambridge, and we shall further provide for their proper exhibition in the University Museum. The collection was begun two years ago, and will require for its completion ten (10) years from July of the present year.

It will gratify my daughter and myself if you will accept the collection as a memorial of the late Dr. CHARLES ELIOT WARE, of the Class of 1834.

The resignation of ROBERT W. GREENLEAF, M.D., as Assistant in Histology and Embryology was received and accepted.

Voted, to substitute the following Statutes, numbered 1, 5, 6, 7, 9, and 12, for the present Statutes of the University bearing the same numbers :—

1. **THE UNIVERSITY.** Harvard University comprehends the following departments : Harvard College, the Lawrence Scientific School, the Graduate School, the Divinity School, the Law School, the Medical School, the Dental School, the School of Veterinary Medicine, the Bussey Institution (a School of Agriculture), the University Library, the Museum of Comparative Zoölogy, the University Museum, the Botanic Garden, the Herbarium, and the Astronomical Observatory. The Peabody Museum of American Archaeology and Ethnology is a constituent part of the University; but its relations to the University are affected by peculiar provisions.

5. **UNIVERSITY COUNCIL.** The University Council consists of the President, Professors, and Assistant Professors of the University and such other University officials as the Corporation with the consent of

the Overseers may appoint members of the Council. It is the function of the Council to consider questions which concern more than one Faculty, and questions of University policy.

6. **FACULTIES.** Harvard College, the Lawrence Scientific School, and the Graduate School are together under the immediate charge of a Faculty,—the Faculty of Arts and Sciences. The other Schools of the University are each under the immediate charge of a Faculty. Each Faculty is composed of all the Professors, Assistant Professors and Tutors, and of all the Instructors appointed for a term longer than one year, who teach in the department or departments under the charge of that Faculty. The President is a member of each Faculty.

A Faculty may, at its discretion, delegate any of its powers relating to ordinary matters of administration and discipline, except the power to inflict the penalties of dismissal and expulsion, to Administrative Boards, nominated from among its members by the President, and appointed by the Corporation with the consent of the Overseers. Every such Board shall be subject to the authority of the Faculty from which it is appointed. Any Administrative Board established for Harvard College shall consist of not less than fifteen members.

7. **DEANS.** Each Faculty has a Dean, who is appointed by the Corporation, with the consent of the Overseers, from among the members of the Faculty. Harvard College, the Lawrence Scientific School, and the Graduate School also have each a Dean, who is appointed by the Corporation, with the consent of the Overseers, from among the members of the Faculty of Arts and Sciences. Each Dean is the chief executive officer of his Faculty, College, or School, is responsible for the proper preparation and conduct of its business, and makes an annual report to the President.

9. **DEGREES.** The ordinary degrees of Bachelor of Arts, Bachelor of Science, Master of Arts, Civil Engineer, Doctor of Philosophy, Doctor of Science, Bachelor of Divinity, Bachelor of Laws, Doctor of Medicine, Doctor of Dental Medicine, Doctor of Veterinary Medicine, and Bachelor of Agricultural Science are conferred, after recommendation by the several Faculties, by vote of the Corporation, with the consent of the Overseers. It is required that no candidate for the ordinary degrees be recommended, except after thorough public examination, and a residence at the University of at least one year. There are four grades of the degree of Bachelor of Arts, two grades of the Degree of Bachelor of Laws, and three grades of the degree of Bachelor of Science. Honorary degrees are conferred by vote of the Corporation, with the consent of the Overseers. The degrees conferred by the University are announced at Commencement.

12. **DISCIPLINE.** The several Faculties have authority to impose fines and levy assessments for damage done to property; to inflict, at their discretion, the penalties of admonition, suspension, dismissal, and expulsion; and to use all other appropriate means of discipline; but no student shall be dismissed or expelled from the University except by a vote of at least two thirds of the members of his Faculty present and voting thereon. Suspension is a separation from the University for a fixed period of time. It may be accompanied with a requirement of residence in a specified place, and of the performance of specified tasks. Dismissal closes a student's connection with the University, without necessarily precluding his return. Expulsion is the highest academic censure, and is a final separation from the University.

Voted, to communicate the foregoing vote to the Board of Overseers that they may consent thereto if they see fit.

Boylston Prizes for Elocution were awarded as follows: First prizes to W. E. B. DU BOIS, Senior; and H. E. BURTON, Senior. Second prizes to GEORGE B. HENSHAW, Senior; FREDERIC S. GOODWIN, Junior; HARVEY H. BAKER, Junior.

"BOSTON, June 5, 1890.

TO THE PRESIDENT AND FELLOWS OF HARVARD COLLEGE, CAMBRIDGE:—

GENTLEMEN,—The deeds of Miss Willard's estate will be passed to you today, and with them my wish in regard to it. The estate henceforth belongs to the College without any condition or restriction whatsoever, and for use in any way which the Corporation may see fit. My hope is that the ground will be used for the present as a playground for the students, and that in case you should need the ground by and by for other purposes, another playground will be given to the students. But the gift is absolutely without condition of any kind. The only other wish on my part is that the ground shall be called "THE SOLDIER'S FIELD," and marked with a stone bearing the names of some dear friends, alumni of the University, and noble gentlemen, who gave freely and eagerly all that they had or hoped for to their country and to their fellowmen in the hour of great need—the war of 1861 to 1865 in defence of the Republic.

JAMES SAVAGE, JR.
CHARLES RUSSELL LOWELL,
EDWARD BARRY DALTON,
STEPHEN GEORGE PERKINS,
JAMES JACKSON LOWELL,

This is only a wish, not a condition, and moreover it is a happiness to me to serve in any way the College which has done so much for us all.

I am, with much respect,

— Another copy. ***III. 5674**

This copy, the gift of Prof. James Russell Lowell, was inherited by him from his father, the Rev. Charles Lowell, D.D. (II. C. 1800) whose autograph it bears; and is further interesting from having the autograph of Increase Mather, who, while president of Harvard college, bought it in London in 1691, during his residence there as agent of Massachusetts, charged with the duty of procuring the provincial charter of that colony from William and Mary.

It was by Mather's efforts that his parishioner, Sir Wm. Phips, was made the first governor under that charter, and it was under Phips' administration that the witches were tried at Salem. The fly-leaf of this book shows in Mather's handwriting his references to passages in it, to some of which he has referred in his *Cases of conscience* in which he calls Webster a "Witch-advocate." Mather was greatly instrumental in furthering the prosecutions of the Salem witches. There is a portrait of Stoughton, the chief justice in the trials, in Memorial Hall.

This book also bears the autograph of Mather Byles, a descendant of Mather. Byles also graduated at Harvard college, and was at one time its librarian.

This warrant, dated March 4, 1674, of which Mr. Thorpe has presented to the library a very careful fac-simile by Vander Weyde, was bought at the sale of the Chauncy MSS. in London in July, 1887, for a small sum. Its special interest lies in the fact that it determines the date of the period of imprisonment (not certainly known before) during which Bunyan wrote the Pilgrim's progress.

OF

REFERENCE LISTS AND SPECIAL BIBLIOGRAPHIES

INCLUDED IN
PERIODICAL AND OTHER PUBLICATIONS OF RECENT DATE.

No. 4. 1890.

By WILLIAM COOLIDGE LANE, *Assistant Librarian.*

*. In continuation of the Index published in January, 1888, and compiled in the same way. The larger number of the following titles refer to books or periodicals published in 1888-90, but a few of earlier date have also been included. I am indebted to Mr. J. L. Whitney, of the Boston Public Library, to Mr. C. H. Hull, formerly of the Cornell University Library, to Mr. G. M. Jones, of the Salem Public Library, and to Mr. William Beer, of the Topeka Public Library, for additional titles which would otherwise have escaped my notice. This list covers to some degree the same ground as the last edition of the Handbook for readers of the Boston Public Library, but no titles have been taken directly from that source. The few titles which I have not been able to verify personally are distinguished by an asterisk. Much of the final labor of preparation for the press has been taken by Mr. C. K. BOLTON, of the College Library.

UNIVERSITY NOTES.

HARVARD NECROLOGY.

Compiled by WILLIAM HOPKINS TILLINGHAST,
Assistant Librarian,

Editor of the Quinquennial Catalogue.

. Graduates and Class Secretaries are requested to send to the writer class reports, both new and old, and all newspapers which contain obituaries and other notices of Harvard alumni. It is important to have the places of birth and death, and, in addition to the year, to have the month and day of the month.

When the place of birth or death is unknown, the place of residence at the time of entering College or of decease, if known, is given within brackets.

The figures denoting age indicate the last completed year of life.

Graduates.

Hon. George Bancroft, whose death is recorded below, became Senior Alumnus after the death of Samuel E. Sewall, of the same class, 20 December, 1888; Mr. Bancroft was also the last surviving member of his class. Rev. Frederick A. Farley, of Brooklyn, N. Y., the last living member of the Class of 1818, is now Senior Alumnus; he was born 25 June, 1800. Of the Class of 1819 one member only, Mr. George H. Snelling, of Boston, is known to be living. Of George Salmon Bourne, and Thomas Leaming Caldwell, whose names are not starred in the Quinquennial, nothing is known; they are thought not to be living, but information about them is earnestly desired. Mr. Caldwell was for a short time after graduation tutor at the University of Transylvania, in Kentucky, where Dr. Charles Caldwell, of Philadelphia, was then Professor of Materia Medica. Of the Class of 1820, Dr. W. H. Furness, of Philadelphia, is the only survivor, while the Class of 1821 is represented by Rev. William Withington, of Washington, the oldest living graduate; 1822, by Mr. S. W. Chandler, of Philadelphia; 1823, by Mr. George Peabody, of Salem, and Mr. W. G. Prince, of Dedham; 1824, by Rev. A. B. Muzzey, of Cambridge, and Mr. George Wheatland, of Salem; and 1825, by Mr. F. O. Dorr, of Troy, N. Y. The Class of 1826 numbers four living members.

2. The alcoves and stack are not open to the students or to the public; but a moderate number of cards of admission may be given, at the discretion of the Librarian, to students recommended by an officer of instruction, such cards admitting the holders to specified classifications only of the Library.

3. Not more than three volumes at one time are allowed, except at the discretion of the Librarian, to borrowers not officers of the University.

4. No borrower, not an officer of instruction, shall keep any book belonging to the Library more than one month; but any borrower may renew a book for fitting reasons.

The use of books much in demand may be restricted by the Librarian to seven days, or to fourteen days.

Any person, on expressing his desire to obtain from the Library a book already lent and not of this restricted class, shall be entitled to prompt notice of its return, and it will be held subject to his order for three days.

Any borrower may be notified that a particular book held by him has been applied for.

For officers, the limit of keeping a book shall be three months; but renewals can be made. Officers may renew, by messenger or by post, books charged to them, without bringing the same to the Library.

5. Books may be taken from the Library only after they have been charged at the Delivery Desk. Persons sending for books must sign and date an order, giving the titles of the books desired.

6. Borrowers remain responsible for books so long as the books are charged to them.

7. No borrower shall write or mark in a book belonging to the Library; and any damage to, or loss of, books shall be made good to the satisfaction of the Librarian.

The Library does not furnish dictionaries for continuous use by students; and does not lend manuals or texts for use in class-rooms.

8. The Librarian may withdraw from circulation all books designated by officers of instruction as needed for reference by their classes. These reserved books, unbound periodicals, and books of reference in the Delivery Room, are allowed to be taken out for use over night; but they must be returned before 9 o'clock the next morning. Reserved books taken out Saturday night may be kept till Monday morning; unbound periodicals and books of reference must be returned Sunday at 1 o'clock. The Librarian shall use his discretion in regard to the lending of works which are rare, costly, or unsuited for circulation.

9. Unbound periodical publications shall be used only in the Library, except as provided under section 8, and except that officers of instruction may take them out after they have been in the Library for four weeks; but such officers can take them earlier for reasons deemed sufficient by the Librarian,—provided that in all cases unbound serials are subject to the recall of the Librarian for binding.

10. Borrowers not officers of the University, who leave Cambridge for an absence of more than one week must first return all borrowed books.

11. No student shall be admitted to the first degree, nor any resident Bachelor to a second degree, till he has exhibited to the Bursar a certificate from the Librarian that he has returned in good order, or replaced, every book that he has borrowed; or, in default thereof, has deposited with the Librarian double the value of it in money; or, if it belong to a set, double the value of the whole set. And no student shall be permitted to take up his bond, or shall be discharged from his responsibilities by the Bursar, till he has obtained such certificate.

12. Infraction of the rules of the Library will subject the delinquent to a suspension of his privileges, or to such other penalty as the nature of the case may require.

THE ORATORS AND POETS
OF
PHI BETA KAPPA, ALPHA OF MASSACHUSETTS,
WITH A
BIBLIOGRAPHICAL DESCRIPTION OF THOSE ORATIONS AND POEMS
WHICH ARE IN HARVARD COLLEGE LIBRARY.

BY WILLIAM HOPKINS TILLINGHAST, *Assistant Librarian.*

*. This list is based upon the record of orators and poets given in the Catalogue of the Harvard chapter of Phi Beta Kappa. The revision incident upon the preparation of a new edition of this Catalogue has shown that the indication of publication given in the edition of 1886 is not trustworthy; eight or ten more names have now been marked, but it is possible that other performances, unknown to the compiler, have appeared in print.

It will be seen that, in several cases, where publication is indicated, no copy has been found in the College Library. Anyone knowing of the existence of an oration or poem not recorded here will greatly oblige the compiler by informing him of the fact, whether the publication be in the form of a pamphlet, or an article in a periodical.

A star is affixed to the names of those orators and poets whose productions have been printed or published, when no copy of the performance has been found in the College Library.

The names of poets are distinguished by a †.

The delivery of this poem, which deservedly produced a strong effect, is described in the *Memoir* of Mr. Cutler, and in Rev. E. E. Hale's notice in the *Christian Examiner* (Sept. 1861). A ms. note on the fly leaf of the copy of *War poems* in this library gives a curious bit of literary history. It was afterward reprinted in England as evidence of the spirit which animated the Confederacy."

MEETING OF JUNE 1, 1891.—The following letter was read to the Board:—

"BOSTON, June 1, 1891.

TO THE PRESIDENT AND FELLOWS OF HARVARD COLLEGE:—

GENTLEMEN,—It is my wish with your consent, permanently to connect with Harvard University the names of my father, J. HUNTINGTON WOLCOTT, and of my brother, HUNTINGTON FROTHINGHAM WOLCOTT.

My father passed the greater part of a long and honorable life in this city, and gave constant evidence of his generous and enlightened concern in all matters touching the higher interests of the community. He was a useful and public-spirited citizen. My brother—as did others in that great crisis—furnished a type of the ideal American youth in the war of the Rebellion. Pure, manly, brave and ardently patriotic, he received from Governor Andrew, Oct. 23, 1864, the commission of Lieutenant before he was 19 years of age, served with conspicuous gallantry under Sheridan in the arduous campaign to the south of Richmond which forced the surrender of Lee, and at the close of the war, came home to die of malarial fever after a few months of severe and brilliant service. Such lives are worthy of commemoration.

The 13th section of my father's will is as follows:—'I give unto my aforesaid son, Roger Wolcott, the sum of twenty-five thousand dollars, to be appropriated and expended by him for such charitable purposes as he shall think fit.'

Before his death I made known to him my wish to devote a portion of this amount to a memorial of his eldest son in connection with Harvard University, and he expressed his cordial approval of my purpose.

Of the sum so left to me by my father I wish to place in your hands \$15,000, and to add thereto a further sum of \$5000, constituting two funds of \$10,000 each, to be held by you for the following purposes and on the following trusts:—

First:—Ten thousand dollars to be received and known as the J. HUNTINGTON WOLCOTT Fund, the income to be expended as nearly as may be in each year in the purchase of books of permanent value for the University Library, the preference in selection to be given to works in the departments of History, Political Economy, and Sociology.

Second:—Ten thousand dollars to be received and known as the HUNTINGTON FROTHINGHAM WOLCOTT Fund, the income to be expended by the Trustees of the Peabody Museum of American Archaeology and Ethnology, or their successors, for the promotion of archaeological and ethnological research and exploration, the purchase of objects illustrative thereof or the publication of matter relating thereto.

I have pleasure in noting that there is included in this amount a sum received after my brother's death in payment of his military services.

It is my belief that for many years the Western Hemisphere will furnish a rich field as yet almost untilled, for the prosecution of such investigations, but it is not my intention to restrict by geographical lines the uses to which the income may be applied.

It would in no way conflict with my wishes if those who have the disposition of the income of this fund should in their discretion decide to allow the income to accumulate for one or more years in order more fully to carry out the purposes of the trust. I can easily conceive that this may be desirable either for the equipment of an expedition for exploration, the purchase of collections or for other purposes within the scope of the trust. But I request that whether the income be expended as it accrues or be allowed thus to accumulate for future use, a vote of the Trustees setting forth the disposition of it be entered upon their records as often as once yearly.

In asking your acceptance of the foregoing trusts, I beg to add that my action has been chiefly influenced by what I believe would have been the wishes of my father and brother.

If I shall be notified of your assent to my proposal, I shall have much pleasure in paying you the full amount (\$20,000) at an early day.

I am, Gentlemen, with much respect, very truly yours,

(Signed) ROGER WOLCOTT."

And it was

Voted, that Mr. ROGER WOLCOTT's offer be gratefully accepted, and that the thanks of the President and Fellows be sent to him therefor, with the assurance that the College will gladly perpetuate the names of J. HUNTINGTON WOLCOTT and HUNTINGTON FROTHINGHAM WOLCOTT by the establishment of the Funds as proposed.

Voted, that until further action of this Board a meeting of the Corporation shall be held in Boston at 11 o'clock A.M. on the day before Commencement in each year instead of the early meeting at Cambridge on the morning of Commencement Day.

The resignation of GEORGE P. BAKER, Jr., A.B., as Instructor in English, was received and accepted.

FROM THE RECORDS OF THE OVERSEERS.

SPECIAL MEETING OF MARCH 25, 1891.—Concurred in various appointments made by the President and Fellows.

STATED MEETING OF APRIL 8, 1891.

Voted, that the Board of Overseers does not concur with the Corporation in its approval of the first and second proposals of the College Faculty, viz. :—

1. "That the requirements for the degree of A.B. be expressed, under suitable regulations with regard to length of residence and distribution of work, in terms of courses of study satisfactorily accomplished.
2. That the number of courses required for the degree be sixteen." Yeas, 20. Nays, 1.

Voted, that the Board of Overseers concurs with the Corporation in its approval of the third proposal of the College Faculty, provided it be amended by striking out the words "the foregoing requirement of sixteen courses," and substituting therefor the words "the requirements for the degree of Bachelor of Arts," so that it shall read as follows :—

"That when a student enters College there shall be placed to his credit towards satisfying the requirements for the degree of Bachelor of Arts (1) any advanced studies on which he has passed in his admission examination beyond the number required for admission, and (2) any other college studies which he has anticipated." Passed unanimously.

Moved, that the Board of Overseers concurs with the Corporation in its approval of the fourth proposal of the College Faculty "that a student may be recommended for the degree of Bachelor of Arts in the middle as well as at the end of the academic year." Yeas—President and Treasurer of the University, Messrs. Putnam, F. C. Lowell, Hoar, Green, Wolcott, G. B. Shattuck, Rawle—9. Nays—Messrs. Lee, R. M. Morse, R. S. Peabody, Russell, Beaman, Hemenway, A. P. Peabody, Saltonstall, Wetmore, Bacon, Torrey, Sprague, Lincoln—18.

Moved, that the Board of Overseers recommend the modification of the present regulations of the College Faculty in accordance with the following proposition :—

That a senior intending to enter the Medical School to take the full four years' course therein, may, under proper supervision, include in the requirements for the degree of Bachelor of Arts the courses of physiology and anatomy required in the first year of the Medical School, each of said courses to count as one full elective course. Yeas—Messrs. Putnam, R. S. Peabody, Wolcott, G. B. Shattuck, Sprague—5. Nays—President and Treasurer of the University, Messrs. Coolidge, Lee, R. M. Morse, F. C. Lowell, Hoar, Russell, Green, Beaman, Hemenway, A. P. Peabody, Saltonstall, Wetmore, Bacon, Torrey, Lincoln, Rawle—18.

Moved, that in the opinion of the Board of Overseers it is advisable that the Faculty facilitate the attainment of the degree of Bachelor of Arts, upon petition, in less time than four years, especially by those students intending to take professional or graduate courses of study, by any means which do not

involve either a reduction in the number or difficulty of the courses required for the degree, or an undue hurrying of the students' work. Yeas — President and Treasurer of the University, Messrs. Putnam, Wolcott, Shattuck — 5. Nays — Coolidge, Lee, R. M. Morse, F. C. Lowell, Hoar, R. S. Peabody, Russell, Green, Beaman, Hemenway, A. P. Peabody, Saltonstall, Wetmore, Bacon, Torrey, Sprague, Lincoln, Rawle — 18.

Concurred with the Corporation in the election of LE BARON RUSSELL BRIGGS, A.M., as Dean of Harvard College.

Dr. H. P. WALCOTT resigned his membership of the Board, and Mr. GEORGE W. WALES declined to serve on the Committee on the Library and on Indo-Iranian languages.

SPECIAL MEETING OF MAY 27, 1891. — Concurred with the President and Fellows in making various appointments.

The report of the Committee to visit the Physical Laboratory was presented and laid over.

The following gentlemen were appointed inspectors of polls at the election of Overseers on Commencement Day: Chief, ROBERT FIELDS SIMES, A.M., Class of 1885; assistants, WILLIAM ROPES TRASK, LL.B., Class of 1885; STILES GANNETT WELLS, A.B., Class of 1886.

Upon the following vote of the Association of the Alumni, the Committee on Elections reported a scheme of voting, and this was ordered to be printed for the use of the Board.

"*Voted*, that the Association of the Alumni are of the opinion that some change in the system of voting for Overseers, whereby the confusion resulting from the present system can be avoided, is desirable: and that they respectfully request the Board of Overseers to adopt rules for the conduct of the elections for Overseers by which some form of the Australian ballot shall be the only ballot which shall be received by the inspectors of elections; always providing that the nomination of candidates for Overseers shall remain with the Alumni under such regulations as this Association shall prescribe; and if the Board of Overseers have no authority to adopt such rules, that they be requested to apply to the Legislature for the requisite authority."

Upon the two following votes of the Association of the Alumni:—

Voted, that no action is necessary.

"*Voted*, that this Association respectfully request the Board of Overseers to consider the subject of allowing Alumni of five years standing to vote by letter at all elections of Overseers."

"*Voted*, that the Board of Overseers be requested to consider whether it is desirable that any change should be sought in the act of the Legislature authorizing the election of Overseers by the Alumni, and providing that no one who holds the degree of A.B. from this College shall vote until five years from his graduation, although he may in the meantime have received a higher degree."

* Nothing is known of Nehemiah Ambrose, nor of his classmate, Joshua Ambrose, before they entered college. Both went to England after graduation and were settled in the ministry in Lancashire, Joshua at Darby [West Derby?], Nehemiah at Kirkby. In 1662 Nehemiah was ejected for non-conformity, while Joshua conformed.—SIBNEY, *Biographical Sketches of Graduates of Harvard University*, i, 381.

The farther information now printed is derived from Mr. F. W. Dunston, of Salisbury, Eng., a descendant of Joshua Ambrose, who writes under date, 24 July, 1891: "I have recently obtained the following information from the sources below indicated: *Chester district Probate Registry*.—Will of Nehemiah Ambrose of Toxteth Park in the County of Lancaster, Clark. Dated 2 Sep. 1668. Testator mentions his wife, Hannah, and his children, Nathaniel, Judith, and Hannah, and he appoints as his executors 'his well-beloved friends and kinsmen,' Michael Briscoe, clerk; Joshua Ambrose, his 'natural brother'; James Jerome, of Liverpool, merchant; and Jonathan Williamson. The will was, in the first instance, proved 27 Oct. 1668 (the date of N. A.'s death being thus very nearly fixed) by all the executors except Joshua A., to whom power of probate was reserved, and who took upon himself the executorship in 1680.

"*Registers of Parish of Walton on the Hill, Co. Lancaster*. Christenings. July. Toxteth. Hannah, daughter of Mr. Nehemiah Ambros.

"It appears that the word 'natural' at the above dates was not used in its present sense of illegitimate.

"I think there can be no reasonable doubt that the testator 'Nehemiah' and his brother 'Joshua' are identical with your 'Ambros senior' and 'Ambros junior.'"

It may be noted that Richard Mather, father of Increase Mather, was the minister at Dingle chapel in Toxteth Park from 1618 to 1634. In 1635 he came to America, and in 1636 became the first minister of Dorchester. The college expenses of the Ambrose brothers were paid by "Mr. Glover, of Dorchester," probably Mr. John Glover, one of the leading men and churchmembers of Dorchester; he was also a Lancashire man, from Rainhill. Isaac Ambrose, a Puritan minister of some note, descended from the Ambroses of Ambrose Hall, in Westby, Lancashire, was of nearly the same age as Mather and Glover, and matriculated at Brazenose College, Oxford, in 1621, three years after Mather, according to the sketch of his life sent to the church at Dorchester by his son, had left it to go to Toxteth Park. Isaac Ambrose was evicted from Garstang in 1662, and died in 1664, at the age of 60. It is not improbable that he was a relative of the Ambroses of Harvard College.

Joshua Ambrose was vicar of Childwall in Lancashire, 1664-65 to 1686.

Judge Story, who bequeathed this volume to the college, has added the following note:—"This volume belonged to the library of President Washington, & the notes are in his own handwriting. I received it from his nephew Mr. Justice Washington, of the supreme court of the United States, with the understanding that he should be at liberty, if he wished, to reclaim it, at any time during his life; & that otherwise it was to be deemed an absolute present from him to me. I place a high value on it; & hope that the greatest attention will be paid to preserve it as a curious & interesting relic. **JOSEPH STORY.** Decr. 14. 1828." There is also in the book a memorandum signed by the President of the University at the date of its receipt, March 5, 1847: "It is not to be removed from the library without a written order from the President. **EDWARD EVERETT.**"

Sparks in his *Writings of Washington*, vol. xi., having access to the volume, while it was still in the possession of Judge Story, printed some of the annotations, but exercised over Washington's language his customary supervision.

He confined his selection to the annotations on the body of Monroe's book. At the same time he copied those upon the

appendix, and this copy went with Sparks's library to Cornell University. From this copy Gilman printed those annotations which Washington had made on the appendix, and they appear in the *James Monroe of the American Statesmen* series. The same want of scrupulous care in transcribing from Washington's script is apparent here as in those parts which Sparks printed.

A CLASSIFIED LIST OF BOOKS

RELATING TO

BRITISH MUNICIPAL HISTORY.

By CHARLES GROSS, Ph.D.

The following list is a selection from a bibliography comprising nearly 4000 titles, which I have almost ready for the press. The works relate, wholly or in part, to British municipal history, in other words, to the governmental or constitutional history of the cities and boroughs of Great Britain. I have tried to make the list a useful guide, not merely to librarians and general readers, but also to investigators of the whole or any particular phase of the subject. For a general criticism of the literature of the subject the reader may consult my essay "A plea for reform in the study of English municipal history" (Papers of the American historical association, vol. v.).

The asterisks indicate a smaller selection of books of prime importance. H signifies that a book is in the Library of Harvard College. Books not in the Harvard College Library which may be found in the Boston Public Library are indicated by a B.

PART I.—GENERAL AUTHORITIES.

Bibliographies.

The following two bibliographies are the most useful, but they are very incomplete, and do not guide the reader through the labyrinth of works on municipal history. For fuller lists of books relating to particular towns, the special county bibliographies should be consulted.

ANDERSON, J. P. The book of British topography. London. 1881. 4° and 8°. H

GOMME, G. L. The literature of local institutions. London. 1886. 16°. H

Public Records and other Original Authorities.

All the sources mentioned below are invaluable for the study of general municipal history. The most important are the Reports of the Corporations commission and of the Historical manuscripts commission. Most of the publications of the Record commission are also useful, *e. g.* the "Statutes of the realm," "Rotuli parliamentorum," "Quo warranta rolls," "Rymer's Foedera," etc.

See below under "Parliamentary representation," "Gilda," "Cinque Ports," "Wales," "Ireland," and "Scotland," for original authorities relating especially to these subjects; see also Part II., under the names of particular boroughs.

ANCIENT laws and institutes of England. Edited by Benj. Thorpe. (Record commission.) [London.] 1840. f°. H

DIPLOMATARIUM anglicum aevi saxonici. Edited by Benj. Thorpe. London. 1865. 8°. H
Useful for the study of Anglo-Saxon gilda.

*DOMESDAY book. 4 vols. London. 1783-1816. f°. H
Volumes iii. and iv. published by the Record commission.

GESETZE (Die) der angelsachsen. Herausgegeben von Reinhold Schmid. Leipzig. 1882. 8°. [Second edition. Leipzig. 1858. 8°.] H

This, like Thorpe's Ancient laws, contains most of the material extant relating to Anglo-Saxon boroughs. The second edition is far superior to the first.

*REPORTS of the commissioners appointed to inquire into the municipal corporations in England and Wales. First report, with appendix. (Parliam. papers, 1835, vols. xxiii.-xxvi.) 4 vols. London. 1835. f°. H

— Analytical index. (Parliam. papers, 1839, vol. xviii.) London. 1839. f°. H

— Second report, London and Southwark. (Parliam. papers, 1837, vol. xxv.) London. 1837. f°. H

— Reports upon certain boroughs. (Parliam. papers, 1837-38, vol. xxxv.) London. 1837-38. f°. H

— First report of the commissioners appointed to inquire into the municipal corporations in Ireland. (Parliam. papers, 1835, vols. xxvii., xxviii.; 1836, vol. xxiv.) [Report and appendix, in four parts.] 3 vols. London. 1835-36. f°. H

— General report of the commissioners . . . in Scotland. (Parliam. papers, 1835, vol. xxix.; 1836, vol. xxxiii.) 2 vols. London. 1835-36. f°. H

— Report of the commissioners appointed to inquire into municipal corporations not subject to the Municipal corporations acts. (Parliam. papers, 1880, vol. xxxi.) London. 1880. f°. H

*REPORTS of the royal commission on historical manuscripts. First report, 1870—thirteenth report, 1891. London. 1870-91. f°. H

ROTULI chartarum, 1199-1216. Edited by T. D. Hardy. (Record commission.) London. 1837. f. H

Accounts of General Municipal History.

a. — *Principal Treatises.*

There is no good general history of English municipalities. Brady is sophistical and antiquated. Honest Madox is still helpful, for he gives us numerous extracts from unprinted public records. The material in Merewether and Stephens is valuable, but many of their general conclusions are untenable. Thompson's little book is readable but fragmentary.

BRADY, Robert. An historical treatise of cities and burghs. London. 1690. f. [Second edition. London. 1704. f. New edition. London. 1777. 8°. This last edition has errors and omissions.] H

*MADOX, Thomas. Firma burgi, or an historical essay concerning the cities, towns, and boroughs of England. London. 1726. f. H

*MEREWETHER, H. A., and STEPHENS, A. J. The history of the boroughs and municipal corporations of the United Kingdom. 3 vols. London. 1835. 8°. H

THOMPSON, James. An essay on English municipal history. London. 1867. 8°. H

b. — *Short Accounts.*

Feilden gives the main facts in a very few pages. Gneist's views are interesting, but he follows Merewether and Stephens too closely.

MEREWETHER, H. A. A sketch of the history of boroughs. London. 1822. 8°. H

By Periods.

a. — *Anglo-Saxon Period.*

Stubbs gives the most trustworthy account of Anglo-Saxon boroughs. Kemble is fuller and more readable, but should be used with caution; he tends to confuse the municipal history of England with that of the Continent. Coote and Wright attempt (in my opinion, without success) to show the survival of Roman institutions in Anglo-Saxon boroughs. Stubbs and Green maintain the opposite view.

b. — *From the Norman Conquest to 1485.*

Stubbs is the best guide for this period.

c. — *From 1485 to 1789.*

Merewether and Stephens give a detailed account of this period, and are more trustworthy here than in the earlier portions of their treatise.

Parliamentary Representation.

a.—General.

The most important original sources are "Parliamentary writs" and "Rotuli parliamentorum." The "Reports on the dignity of a peer" contain a detailed history of English legislative assemblies, and also many extracts from public records illustrating the subject. Gneist gives a short general account of parliamentary history. Cox and Riess are valuable for particular phases of the subject.

b.—Parliamentary Reform.

May and Walpole (see above, under "Nineteenth century") give good short accounts. Of the general histories of parliamentary reform, 1832-1884, Heaton's is the best. Molesworth and Roebuck are the fullest authorities for the reform of 1832; Cox, for that of 1867; and Lucy, for that of 1884.

Gilds.

Many documents relating to gilds are printed by Smith and Gross. Walford's book is encyclopaedic and superficial. Brentano's sketch is brilliant but unreliable. Salvioni follows pretty closely in Brentano's tracks. Von Ochenkowski is helpful for the study of craft fraternities. Ashley, Cunningham, and Seligman give good short accounts of the whole subject. It is difficult to make a selection from the vast array of books relating to London. To supplement the list given below, the reader should consult the Catalogue of the London Guildhall library (1889). Loftie's History is the best general account; Norton's Commentaries is the best constitutional history; Pulling's Treatise contains the fullest information concerning particular laws and customs; Birch gives the charters of the city; Herbert, Arundell, and the City of London Livery companies commission's report are the best general authorities on the Livery companies; Welch gives information concerning works on particular companies or gilds; Firth's Municipal London is the ablest treatise on municipal reform; and the Report of the Municipal corporations commission (1837), the Munimenta Gildhallae, and Riley's Memorials are particularly valuable for the study of London municipal history.

FROM THE RECORDS OF THE CORPORATION.

MEETING OF OCTOBER 26, 1891. — *Voted*, that the thanks of the President and Fellows be sent to Mrs. HENRY DRAFER of New York for her additional gift of \$833.33 received October 13, 1891. towards the expenses at the Observatory of Harvard University on account of the Draper Memorial.

Voted, that so much of the Rotch gift for an electrical workshop as shall not be needed for the building may be spent for apparatus, etc., by Instructor ADAMS with the approval of the Dean of the Lawrence Scientific School.

Judge ENDICOTT made a written report upon the matters referred to him on May 25, 1891, in relation to the Dudleian Lectures. His report was adopted and it was thereupon *Voted*, to make answer as follows to Professor FRANCIS J. CHILD and the other petitioners for the suppression of the third lecture against Catholicism:—

"The Corporation has considered with much care the remonstrance signed by fifty-eight members of the Faculty of Arts and Sciences, in which they urge the suppression of the third Dudleian lecture, the subject of which is the Romish Church, and in substance declare that the continuance of this lecture at the present time would be both impolitic and unbecoming, and even more than unbecoming, it would be 'indecent and unjust'; and doubtless referring to the strong and violent language used by Chief Justice Dudley in the third clause of his will in pointing out what he considered the errors, idolatry, tyranny, usurpations, superstitions, heresies, and crying wickedness in high places of the Church of Rome, they recommend not only the suppression of this lecture, as one of the four directed to be given in his will, but they also in substance declare that the surrender of the whole trust and the abandonment of the lectures would be a slight evil compared with the maintenance of this trust, if this third lecture against Catholicism is continued.

"The Corporation cannot concur in this conclusion and is of opinion that the suppression of one of the four lectures provided for under this bequest would be a breach of trust which might amount to a renunciation of the whole trust; for refusal to perform a part of the duty imposed upon and accepted by the College might well be considered a breach of the entire trust—a material change having been made therein.

"The Corporation must decline therefore to take the steps proposed in the remonstrance either in whole or in part.

"The language used by the Chief Justice, who was a just and sincere man, is language characteristic of the time when animosities among religious sects were bitter and intense; and if he were to draw the clause to-day, it would be couched in different terms and would breathe a very different spirit. No lecturer could now with propriety use such language, adopt such views, or be inspired by such a spirit, as is disclosed by the expressions of the Chief Justice in drawing the third clause of his will. At the present time this subject should be and doubtless will be treated historically. Great changes have taken place in the opinions of theologians, scholars, and historians, not only in regard to the attitude of the Catholic Church, but also in regard to natural and revealed religion and the ordination of ministers; and the opportunity may well be taken in delivering this third lecture to soothe and allay the animosities and bitterness of the past, and deal with these questions in a broad, scholarly, and magnanimous spirit."

Voted, to appoint HAROLD CLARENCE ERNST, M.D., Assistant Professor of Bacteriology for five years from September 1, 1891.

Voted, to reappoint FRANK WILLIAM TAUSSIG, Ph.D., Assistant Professor of Political Economy for five years from September 1, 1891.

Voted, to proceed to the election of a Professor of Parasites and Parasitic Diseases, whereupon ballots being given in it appeared that WILLIAM FISKE WHITNEY, M.D., was elected.

Voted, to communicate this election to the Board of Overseers that they may consent thereto if they see fit.

Voted, to appoint the following Instructors for 1891-92: ROBERT WHEELER WILLSON, Ph.D., in Physics; THEODORE HENCKELS in French; JAMES GRAY LATHROP in Athletics.

MEETING OF NOVEMBER 9, 1891.—The Treasurer reported that he had received from JACOB H. SCHIFF, Esq., the sum of \$250 to be used for the encouragement of the study of Semitic languages; also \$350 to be used for a scholarship for 1891-92 in the Semitic department, — and it was

Voted, that the thanks of the President and Fellows be sent to Mr. SCHIFF for his continued liberality to the Semitic department.

Voted, to grant the free use of Appleton Chapel on Sunday mornings and afternoons to the North Avenue Methodist Episcopal Church until their new church building is finished.

Voted, that the courses in Philosophy 2 and 20a be counted as laboratory courses with a fee of \$5 each.

Voted, to reappoint FRANK BREWSTER, LL.B., Instructor in the Peculiarities of Massachusetts Law and Practice for 1891-92.

Voted, to appoint HENRY FISKE LEONARD, M.D., M.D.V., Clinical Lecturer in the School of Veterinary Medicine for 1891-92.

Voted, to appoint HARWOOD HUNTINGTON Assistant in Chemistry I for 1891-92.

The petition of Miss MARION HAMILTON CARTER, that she be allowed to take the graduate course in Psychology with Professor James this year, was considered and the Secretary was directed to say to Miss CARTER that such a request cannot now be granted by the University.

MEETING OF NOVEMBER 30, 1891. — *Voted*, that the thanks of the President and Fellows be sent to Mrs. HENRY DRAPER of New York for her additional gift of \$833.33 received November 17, 1891, towards the expenses at the Observatory of Harvard University on account of the Draper Memorial.

The Treasurer reported that he had received through Professor PICKERING the sum of \$500 as a gift from Miss CATHERINE W. BRUCE of New York for the publication of certain observations, and it was

Voted, that the thanks of the President and Fellows be sent to Miss BRUCE for her continued liberality to the Observatory.

The following communication was received in relation to the Dudgeon lecture against Catholicism :—

"CAMBRIDGE, November 17, 1891.

TO THE PRESIDENT AND FELLOWS OF HARVARD COLLEGE :—

GENTLEMEN, — At a meeting held in Cambridge on the 12th of the current month by the members of the Faculties of Arts and Sciences, Law, and Divinity who presented a memorial to the President and Fellows of Harvard College on the 25th of May, 1891, urging the suppression of the Dudgeon Lecture against Catholicism, it was voted to communicate to the President and Fellows the following statement :—

The members of the Faculties of Arts and Sciences, Law, and Divinity who presented a memorial to the President and Fellows of Harvard College on the 25th of May last, urging the suppression of the Dudgeon Lecture against Catholicism, have received the reply made October 26, in which the President and Fellows decline 'to take the steps proposed in the remonstrance either in whole or in part.'

While the memorialists remain in the conviction that the revival and continuance of a lecture inconsistent with the unsectarian character and policy of the University must be prejudicial, and while they cannot think that the method proposed by the Corporation is one which really carries out the purpose of the founder of the lectures, they see no utility in pressing views which have no likelihood of obtaining the interest and concurrence of the Corporation.

(signed) J. C. GRAY, *Chairman*.

(signed) GEORGE LYMAN KITTREDGE, *Secretary*."

Voted, on recommendation of Professor PICKERING that the time signal service in connection with the Observatory shall cease at the end of March, 1892.

Voted, to grant the request of Professor JOHN WILLIAMS WHITE for leave of absence for the academic year 1892-93 in accordance with the rules established by this Board, May 31, 1880.

MEETING OF DECEMBER 14, 1891. — The Treasurer reported that he had received from JOHN O. SARGENT, Esq., the sum of \$100 for the Sargent Prize for 1891-92, and the same was gratefully accepted.

Voted, that the thanks of the President and Fellows be sent to Mrs. HENRY DRAPER of New York for her additional gift of \$833.33 received December 8, 1891, towards the expenses at the Observatory of Harvard University on account of the Draper Memorial.

Voted, that the thanks of the President and Fellows be sent to JOSIAH MARTIN, Esq., F.G.S., of Auckland, New Zealand, for his valuable gift to the Geological Department of Harvard College of a series of photographic views showing the terraces of Rotomohana.

The resignation of Proctor DAVID C. TORREY was accepted.

MEETING OF DECEMBER 28, 1891. — *Voted*, to appoint ROBERT TRACY JACKSON, S.D., Assistant in Palaeontology for 1891-92.

Notice having been received from the Secretary of the Faculty of the Museum of Comparative Zoölogy that HENRY PICKERING WALCOTT, M.D., was nominated as a member of that Faculty to fill the vacancy caused by the resignation of HENRY PICKERING BOWDITCH, M.D., it was

Voted, that the same be confirmed and notice thereof be transmitted to the Faculty of the Museum by the Secretary of this Board.

Voted, that the sum of \$350, lately received as a gift from Mr. SCHIFF, be paid to Assistant G. A. REISNER of the Semitic department during the current academic year.

Voted, to appropriate the sum of \$100 to aid Mr. HENRY F. WATERS in his genealogical researches in England.

CORRECTIONS.

1853. Ambrose, Nehemiah, and Joshua. Since the publication of the last Bulletin my attention has been called to the discovery by Mr. William S. Appleton of the parentage of the Ambrose brothers, which he described in the *New England Historical and Genealogical Register*, July, 1890: "I have just read a will of so much interest that I must send you a note of it. Mr. Savage says in his dictionary, under the name, AMBROSE, 'JOSEPH, of wh. we gladly would kn. the f. and date of b.' 'NEHEMIAH, of unkn. parentage.' The will in question is that of Peter Ambrose of Toxteth, Lancashire, written in 1653, proved in 1654-5, in which he mentions his sons Joshua and Nehemiah. He also speaks of money advanced to Joshua and Daniel Henshaw, sons of William Henshaw, late of Toxteth, 'who are now in New England.'"
1878. McFaden, Robert Dean, b. 5 December, 1858. [Bulletin, January, 1891.]
1868. Wolfe, Charles Spyker, d. at *Harrisburg*. [Bulletin, October, 1891.]

SUPPLEMENTARY LIST OF DEATHS OF GRADUATES OF THE
LAW SCHOOL RECENTLY ASCERTAINED.

. The deaths of many of the older graduates of the Law School, especially those of Southern and Western students, were unknown to officers of the School or of the College, and were unrecorded in the triennial and quinquennial catalogue down to the issue of 1885, although it was apparent from a comparison of the percentage of deaths in the College and Schools, that more law graduates must have died than were so marked. When Mr. ARNOLD, Librarian of the Law School, undertook the preparation of the General Catalogue of that School, which appeared in 1888, he began at once to receive information of deaths previously unknown. A few of these were printed in the Bulletin for May, 1888, but the great number reported, and the need of further investigation to supply or confirm details, made it desirable to defer publication here for a time. All the information obtained was, however, printed in the Commencement Necrologies of 1888, 1889, 1890. The present list gives all these deaths not already printed in the Bulletin, revised by the latest information in Mr. ARNOLD's hands; in a few cases such information has corrected or supplemented notices already printed in the Bulletin, and such notices have been reprinted in the more correct form.

NOTES ON SPECIAL COLLECTIONS

TO BE FOUND IN THE

PUBLIC LIBRARIES OF THE UNITED STATES.

In March, 1889, a circular letter of enquiry was sent to all the libraries in the United States of ten thousand volumes and upwards, and to such smaller ones as were thought to contain material that might contribute to the object in view. The circular was as follows:—

The Library of Harvard University desires to publish as one of its *Bibliographical Contributions* a list of the principal libraries in the United States which possess extensive and valuable collections of works in one or more special departments, with notes in regard to these special collections stating briefly their character and extent. The object of such a publication is to show scholars and investigators where they are most likely to find material connected with the subject of their studies.

I have the honor to request your coöperation to this end and beg that you will furnish me information for this purpose in regard to the library under your charge. It is impossible for me, of course, to give any precise measure of the extent or value a collection should have in order to be included with advantage in such a list. It must depend largely on the character of the subject, but, in general, information is desired concerning any specialty for which your library has had exceptional opportunity or has made distinct efforts to gather material. In the case of libraries devoted to medicine, law, theology, etc., to which this circular may be sent, the enquiry is directed not so much to their collections taken as a whole as to the separate parts in which they may be exceptionally strong, and so in all cases, the more precise and limited the subjects mentioned, the more valuable will be the information to the special student, e. g. the fact that a library has 200 volumes of Miltoniana is more to the point than that it has 5000 volumes of English literature.

A large number of replies to this circular were received, but stress of other work made it necessary to lay them aside for a time. At length in the spring of 1892 the task could be resumed; circulars were sent again to those libraries which had not answered the earlier application, and from nearly all of them replies were received.

The Notes which follow have been compiled from the information thus obtained, and the printer's proof has been submitted in every case to the librarian or other responsible officer for correction and completion to date. The statements may therefore be considered as authoritative, except in the case of one library from which no reply was received, but which the compilers were unwilling to omit from their list. The account of the Lenox Library in New York, the most noted for its special collections in the United States, has been drawn from such trustworthy sources as were accessible, and it is hoped is not seriously deficient or incorrect.

It is evidently impossible to fix any standard by which to measure and compare the special collections of different libraries. The estimate of their importance has been necessarily left to the librarian, the result of which is that in some cases subjects are not mentioned which well deserve to be, while in others, collections of relatively small extent are given an importance which does not properly belong to them. On the other hand the compilers have not hesitated to omit from the reports sent them items which seemed to them unimportant, and occasionally to leave out a library altogether, even though the librarian has been at some pains to furnish them with information.

For the evident incompleteness and unevenness of these Notes, the compilers desire to offer their apologies. Such shortcomings, however, they feel are to no small degree inevitable in a new undertaking of this kind, and they hope that, should this first attempt be found of real service to scholars, they may be able at some future time, with the continued coöperation of the libraries of the country, to make a second edition more complete and systematic.

The Index includes the names of all topics referred to in the Notes, the names of private owners whose collections have passed into the possession of public libraries, and the names of the libraries themselves when not derived from the name of the place where they are situated.

To the many librarians whose ready help and obliging answers have made the accomplishment of their task possible, the compilers beg to return their grateful acknowledgments.

WILLIAM COOLIDGE LANE,
CHARLES KNOWLES BOLTON.

NOTES ON SPECIAL COLLECTIONS

PUBLIC LIBRARIES OF THE UNITED STATES.

The library publishes a Bulletin of *Additions* containing a list of all additions (except law books, which the library will include in its annual law bibliography) closely classed by subject, followed by author and minute alphabetic subject indexes.

An Author Catalogue was published in 1856, with supplement in 1861; and a Subject Index in 1872, with supplement to it in 1882. A catalogue of maps, manuscripts, engravings, coins, etc. was printed in 1857, and one covering bibliography, typography, and engraving in 1858.

A Subject Catalogue was printed in 1882. The library publishes a Bulletin of *Legislation*, which is a minutely classified annual summary of new laws passed by all the States, followed by a full alphabetic index of specified topics. Though printed specially to enable New York legislators to utilize with a minimum of labor the experience of other States, it is of course equally useful to all legislators and students of comparative legislation elsewhere. To enable the consulter to determine which laws he needs to look up, each is briefly summarized under its specific head, and cited exactly, usually by State, chapter, number, and date of approval. Elaborate charts of funds and expenditures show for each State and each object the payments of the last fiscal year.

Burlington, Vt.—UNIVERSITY OF VERMONT—GEORGE P. MARSH LIBRARY. (Henry A. P. Torrey, Librarian.)

Of the 44,000 vols. now belonging to the University about 13,000, once the private library of Hon. George P. Marsh, U. S. Minister to Italy, were purchased and presented by Hon. Frederick Billings of Woodstock, Vt. Among these there are:—

In *Italian*, including Italian dialects and philology, 2400 vols.

In the literature and philology of the *Danish*, *Swedish*, and *Icelandic* languages, about 2000 vols.

In *forestry* 140 vols., with other special collections in *physical geography*, *travels*, the *Catalan* dialect, and other European dialects, *Early English*, *Dutch*, and works on the *Catholic church*. A catalogue of the Marsh library, compiled by H. L. Koopman, is now in press.

Cambridge, Mass. — HARVARD UNIVERSITY LIBRARY. (Justin Winsor, Librarian.)

*. The distinction between the University Library and the College Library should be borne in mind. The former embraces the College (or central) library, as well as the nine departmental libraries (Law School, Divinity School, Museums, Astronomical Observatory, Herbarium, etc.), eight laboratory libraries, and thirteen class-room or seminary libraries.

The COLLEGE LIBRARY (in Gore Hall). The collection relating to *American history*, biography, genealogy, and geography numbers 22,348 vols., of which 16,762 relate to the *United States*. This is independent of contributions to American history which may be contained in collections too general to be classed as Americana, and it does not include the official publications of the federal and state governments and of cities and towns. The basis of the collection was the libraries formed by Professor Ebeling and David B. Warden, the former the gift of Col. Israel Thorndike of Boston in 1818, and the latter presented by Mr. Samuel A. Eliot in 1823. (Nar. and Crit. Hist. America, vol. i. p. iii.) Pains have been taken constantly to fill such gaps as exist. The early ecclesiastical history of America, particularly of New England, so intimately connected with the civil government, is also not included in this enumeration, but will be found with the later history in the ecclesiastical department of the College Library, supplementing that in the library of the Divinity School.

The collection of books and tracts illustrating the rise and growth of *American slavery* numbers 869 vols. as bound, much the larger part being volumes made up of many pamphlets bound together. In the subject catalogue the titles under the heading Slavery number about 2300. The collection is largely the result of the assiduity of the late Charles Sumner and of Col. Thomas Wentworth Higginson.

The Library has also a very good and growing collection of *British local history* and topography; and that part of the collection illustrating specially British municipal history is represented in Bibliographical Contributions, No. 43, edited by Dr. Charles Gross, an authority in this field.

In the sources of *mediaeval European history* the library has all the large or important collections relating to countries as a whole, and many of the more useful and extensive documentary works relating to single cities and monasteries. The latter branch of the subject has been much strengthened by the recent gift of several hundred volumes relating to early German history and law from Denman W. Ross of Cambridge, and by the bequest of Professor E. W. Gurney's private library.

In the *Roman or Civil law* the catalogue of the Library shows about 950 vols. Professor Gurney's library has also notably increased this department,

many of his books being still uncatalogued and not included in the number given above. Many of the volumes placed on the shelves under Roman political antiquities stand in close relation to this subject, but are likewise not included in the number mentioned.

The collection of United States *Congressional documents* numbers 2800 vols., and is one of the most complete in the country; many of the earlier and rarer volumes having been received with the Ebeling library.

The collection of books by and relating to *Dante* numbers 1372 vols. In 1884 Professor Charles Eliot Norton gave the larger part of his valuable collection on Dante to the College Library, and since that time the Dante Society has made an annual appropriation for the purchase of books in this department. It has but little manuscript material, but of printed books it has everything of the first importance required by scholars for critical study, and a large proportion of the supplementary and expository writings on Dante and his times. No. 34 of the Bibliographical Contributions published by the Library is Mr. Wm. C. Lane's "Dante Collections in the Harvard College and Boston Public Libraries" (Cambridge, 1890). This enumeration includes additional titles from the private collections of Professor Norton and the late Professor George Ticknor.

A collection of books by and upon *Milton*, numbering 278 vols., is largely made up of one formed by the late George Ticknor.

The Library received under the will of Thomas Carlyle his collection of books on *Cromwell* and *Frederick the Great*, numbering 422 vols., which are enumerated in No. 26 of the Bibliographical Contributions. At a later day some additions were made to Mr. Carlyle's own bequest by Mrs. Alexander Carlyle, and these books are noted in the University Bulletin, No. 52.

The collection of *folk lore* and *mediaeval romances* number 5822 vols., and is supposed to be the largest in existence. Its Slavic section is remarkably good. Professor F. J. Child has based upon the collection his well-known *English and Scottish Popular Ballads*, the final edition of which is now nearly completed. There are included in the collection a very large number of Chap-books; and manuscript copies of all the important collections of popular ballads in the British Museum, which have not been printed. The large collection of French popular ballads (with music) which was made by a commission appointed by Napoleon III. has also been copied.

The collection of *classics* and *classical philology* numbers 17,848 vols., and is supplemented by the collection of the Classical Seminary in Harvard Hall, and by illustrative archaeology in the archae-

ological and art classifications of the College Library.

The collection of *Sanskrit literature* includes about 400 printed texts, about 500 mss., the gift of Mr. Fitzedward Hall, and about 500 more mss. purchased in India by Professor Lanman for the Library. Many of the printed books were given by the late Henry W. Wales, and his brother, Mr. Geo. W. Wales, has since annually given \$200 to increase the collection.

The Library is well supplied, particularly with the older books, in all departments of *theology* and *Biblical criticism*. Including the collection in the Divinity School library, it probably excels any other in *Unitarian* theology and controversial works. It has a very fine collection of the rarest *Bibles* selected by the late George Livermore and Ezra Abbot, authorities in the bibliography of the Scriptures. Professor Abbot's private library was bequeathed to the Divinity School and still farther enriched this department. The collection of printed sermons probably numbers about 10,000.

In 1888 Mr. John Harvey Treat presented his collection of works on *ritualism* and *doctrinal theology*, numbering 587 titles. It is catalogued in Bibliographical Contributions, No. 36.

The late President of the College, Jared Sparks, left his collection of *manuscripts*—mostly copies, but including some originals, such as the papers of Gov. Bernard, one of the royal governors of Massachusetts—to the Library. A calendar of them, and of other minor collections of papers relating to *American history*, constitutes No. 22 of the Library's Bibliographical Contributions. The most considerable collection of original manuscripts in this field, possessed by the Library, is the papers of Arthur Lee, which were left to the Library in 1827; two other parts of the same collection being given at the same time to the American Philosophical Society in Philadelphia and to the library of the University of Virginia. A calendar of the portion in Harvard College Library is given in No. 8 of the Bibliographical Contributions.

No. 6 of the Library's Bibliographical Contributions (1879) shows part of the books and autographs bequeathed to the Library by Hon. Charles Sumner. The collection is a general one, but embraces many books of curious and bibliographical interest, and interesting autographs.

The Library has some treasures in *American aboriginal linguistics*. Chief among them is the *Abenaki Dictionary* of Sebastian Rasle, which was printed under the editing of John Pickering in 1833 by the American Academy of Arts and Sciences (see Bibliographical Contributions, No. 22, p. 86).

The linguistic contributions to the study of the Delaware and other aboriginal languages of the

Indians living in the present Middle States, by David Zeisberger, a Moravian missionary, were given to the Library in 1845. See Bibliographical Contributions, No. 22, pp. 86-88, and the enumeration in J. C. Pilling's *Algonquian Languages* (Washington, 1892).

The most interesting of the manuscripts of a character other than American history—and the Library has a small collection—is perhaps a book in which the poems of Shelley when he composed them were written either by himself or by his wife. This manuscript is described, with a fac-simile of the poem "To a Skylark," in Bibliographical Contributions, Nos. 30 and 35.

The collection of loose *maps* is the largest in the country, numbering about 12,000 sheets,—the basis of the collection being that formed by the late Professor Ebeling of Germany, which came to the Library with his collection of Americana in 1818. It has been added to from time to time, particularly so as to complete the cartographical publications of the United States government and the ordnance surveys of the principal European countries. The collection of bound maps and atlases is also large (about 700 vols.), including such fac-simile collections as those of Santarem, Nordenskiöld, etc., and the printed editions of the early geographers like Ptolemy, Mela, Wytfliet, Münster, Mercator, Ortelius, etc. In maps illustrating the historical geography of America, the collection (to judge from a comparison made with its printed catalogue) is quite as good as that of the British Museum. Efforts have been made to procure all printed books which are useful in facilitating the use of the collection. There is a ms. subject catalogue of the maps.

— — — DIVINITY SCHOOL. (R. S. Morison, Librarian.)

This library, containing about 23,000 vols., though mainly devoted to *theology* and *Biblical* and *ecclesiastical* subjects, is not limited to those departments. Its theological collection has already been spoken of above. A collection of the works of *Joseph Priestley* and the *Greek Testaments* deserve separate and special mention. In both subjects the additional works in the College Library form important supplements.

— — — LAW SCHOOL. (J. H. Arnold, Librarian.)

The aim of the library of the Law School is to maintain and constantly increase a useful working collection for the benefit of the School. It possesses a very large and valuable collection of works on the *Roman law*, an unusually full collection of treatises on *Scotch law* down to 1840 (over 400 vols.), and a very good collection of

works on modern *German law*, especially on commercial law, of nearly 1000 vols.

While the library is very complete in its reports of the various Courts of the United States and of foreign countries, it cannot be said to differ in this respect from other important law libraries in this country.

In one respect, however, the library is believed to be exceptional, namely, in the quality and number of its editions of important legal treatises. Much care has been taken to accomplish this result, which is of especial use to students, writers, and investigators, who often find in an early or particular edition of a work matter of especial interest and value, not to be found elsewhere.

— — — MUSEUM OF COMPARATIVE ZOÖLOGY. (Miss F. M. Slack, Librarian.)

This library, of about 22,000 vols., is almost exclusively devoted to *zoölogy* and *geology*. Its nucleus was the private library of Professor L. G. de Koninck, collected between 1835 and 1860. The books on *embryology* number about 300 vols. and 1000 pams. The *entomological* collection is described by Mr. S. H. Scudder in Bibliographical Contributions, No. 11, as the most valuable in America. It includes the private collection of Professor H. A. Hagen, and in 1880 contained about 2000 vols. and 3000 pams. It has many sets of the older magazines, many works of great rarity, and is particularly rich in papers on the Neuroptera and Pseudoneuroptera and in the bibliography of entomology. In the College Library are some 500 vols. more relating to insects, mainly selected while Dr. Harris was librarian. The private library of Mr. S. H. Scudder should also be mentioned here; it contained, in 1880, 765 vols. and nearly 2000 pams., and is particularly rich in works relating to Orthoptera and to fossil insects.

The private *geological* and *geographical* library of Professor J. D. Whitney will eventually become a part of the Museum library. It consists of some 10,000 vols. and contains many scarce pamphlets, the reports of State and United States geological surveys and works on geology, palaeontology, mineralogy, and geography.

— — — PEABODY MUSEUM OF AMERICAN ARCHAEOLOGY AND ETHNOLOGY. (F. W. Putnam, Curator.)

The library of the Museum (1232 vols. and 1340 pams.) forms a useful working collection of books on *archaeology*, *ethnology*, and *anthropology*, but does not call for special notice. The principal anthropological and ethnological journals are regularly received.

— — — ASTRONOMICAL OBSERVATORY. (E. C. Pickering, Director.)

The library of the Observatory contains in all 7000 vols., and is strong, through the exchange of

its Annals, as well as by purchase, in the publications of *astronomical*, *meteorological*, and *magnetic* observatories. *Geodesy* and physics (more particularly those branches connected with *optics*) should also be mentioned.

The Observatory has a special fund for the maintenance of a mountain observatory, and in connection with this work provides its library with the literature relating to the *geography of mountainous countries* throughout the world. The collection of books in *practical mathematics*, including old astronomical treatises, is of some importance.

The library at present is being put in more serviceable condition, arranged according to subjects, with accompanying lists.

— — — LIBRARY OF THE GRAY HERBARIUM. (B. L. Robinson, in charge.)

This library contains about 6000 vols. and 8000 pams. Its nucleus was Professor Asa Gray's private botanical library of some 1600 vols. and about the same number of pams., which was presented by him to the Herbarium in 1864. The same year John A. Lowell also presented his botanical library of 350 vols., including a number of works of especial rarity and value.

The branch in which the Herbarium library is strongest is the *systematic botany of phaenogams* and *icones* illustrative of this subject. The collection of *botanical periodicals* is also very good. While the departments of cryptogamic, structural, and physiological botany take a secondary place, they are nevertheless represented by several hundred volumes and many pamphlets. For works on these subjects the College Library should also be consulted.

Bibliographical Contribution, No. 9 (1879), is a list of the floras of different countries by Professor G. L. Goodale, almost all of which are either in the Herbarium or the College Library.

Canton, N. Y. — ST. LAWRENCE UNIVERSITY — HERRING LIBRARY. (Profs. C. K. Gaines and H. P. Forbes, Librarians.)

Contains the Credner collection, 2850 vols., the library of Prof. K. A. Credner of Giessen, Germany, formed between 1810 and 1865, and rich in works on dogmatic theology of the *Reformation* era; the Loveland collection, 600 vols., mostly *philological*, formed by Rev. S. C. Loveland; and a large collection of *Universalist* periodicals and pamphlets of the period from 1800 to 1850. Whole number of bound volumes about 11,000, and nearly as many pamphlets.

It now contains 12,000 vols. of *masonic* and anti-masonic works, including the proceedings of all Masonic Grand Bodies of the world and many periodicals. Antiquarian researches and *archæology* are well represented also, works on ruins, pyramids, temples, and the mound builders. There is a fair but varying appropriation each year; by this means and by gifts the additions reach 300 and 400 vols. yearly. A full catalogue was printed in 1873 and a supplement in 1883.

The library has about 100 mss., mostly of a Masonic character, a few relating to the early *history of Iowa*; also a large collection of masonic and government *medals*, engravings, and photographs of masons, and *autographs* of distinguished men and masons.
